COVID-19 safety guidelines for Swimming Pools

Enjoy Your Summer Safely

You can still enjoy a day at the pool while protecting yourself and the people around you from COVID-19. While there is no evidence that COVID-19 can spread in chlorine swimming pools and hot tubs, there are still precautions you should take while at the pool.

Pack Your Summer Safety Kit

Before you go out, pack your summer safety kit with hand sanitizer, disinfecting wipes, tissues, a clean face mask, and a bag to keep your mask dry.

Don't forget to pack your usual summer safety items like sunscreen and plenty of water.

Practice Physical Distancing

Continue practicing physical distancing both in and out of the water. Stay 6 feet apart from people you do not live with.

If you pull chairs close together, spread them back out for the next visitor. Wipe your deck chair with a disinfecting wipe before and after use.

Know Before You Go

Check with your local pool for details on safety precautions, crowd size limits and any other helpful information you need to know before visiting the pool.

For more information on COVID-19 in Missouri and what you can do to stop the spread, visit oneforallmo.com or contact your local public health experts.
